

AN INTRODUCTION TO THE FLASH

The Flash is a not for profit community radio station serving the greater Waterlooville area on 104.3 FM, and also available on DAB to the Portsmouth, Gosport, and Hayling areas. We are run entirely by volunteers and promote the talents of local unsigned bands, musicians, and singer/songwriters within these communities. The Flash also promotes all that is positive in the local area by giving airtime to local community groups, charities and volunteers.

We provide an alternative format for those who prefer to listen to music produced by real musicians rather than a computer, and have often been described as a breath of fresh air by listeners who usually get frustrated by the

limited playlists of most pop based stations. We don't just stick to the well known singles either, we often include lesser heard tracks from classic albums.

Other community radio stations around the country support local unsigned artists by providing a specialist programme for followers of the local music scene, while our approach is to reach listeners who would not usually visit a local live music venue by mixing original tracks by local musicians within our daily output.

We also broadcast a regular Local Live Music Gig Guide so our listeners can follow the artists they hear on air. This gig guide is compiled by our volunteers and is a free service for local music venues and live acts that perform in the Greater Waterlooville and Portsmouth areas.

The Flash also invites local artists and organisers of community and charity events in to our studio for on air chats and live acoustic sessions.

The Flash is also available WORDWIDE via our website and tunein app for mobile devices. We operate in association with Park Community School in Leigh Park and Waterlooville Library.
